

HOD v9 Windows Browser “Cached Client” Download Instructions

Java required: **Sun JRE 5.0 Update 6 or higher**

Pop up windows: *must be allowed* within the browser prior to attempting the download.

To download and install HOD v9:

1. Connect to the IS&C Host On-Demand website:

<http://www.isc.ucsb.edu/osg/hod/index.html>

2. Click on HOD v9 “Cached Client” link.

3. You should see the “IBM WebSphere Host On-Demand” logo and Java symbol:

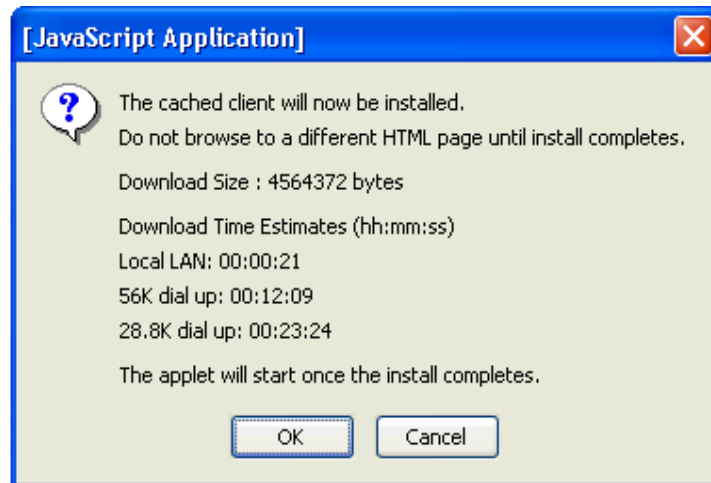

4. You may be prompted to accept a digital signature.

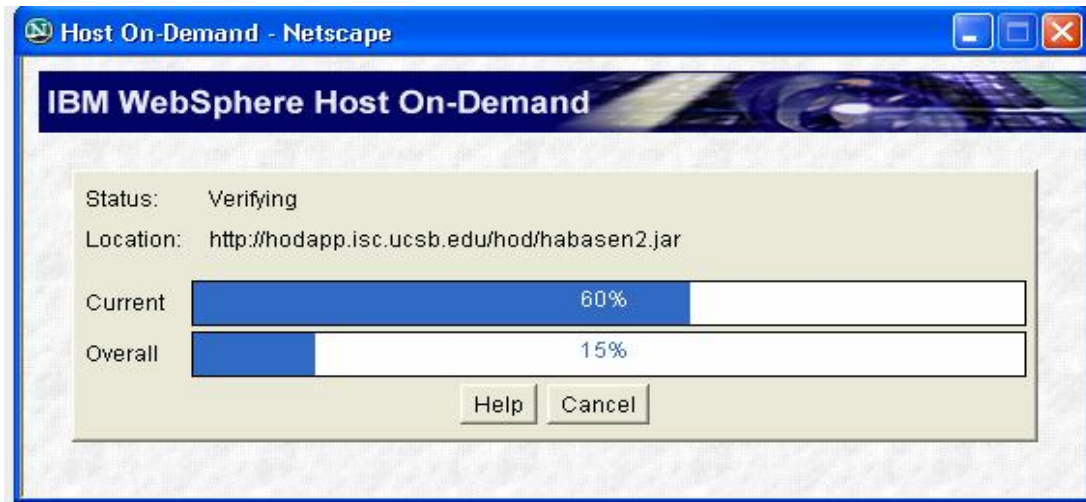

Click "**Run**" to continue with the download.

5. You should now see the following cached client download message:

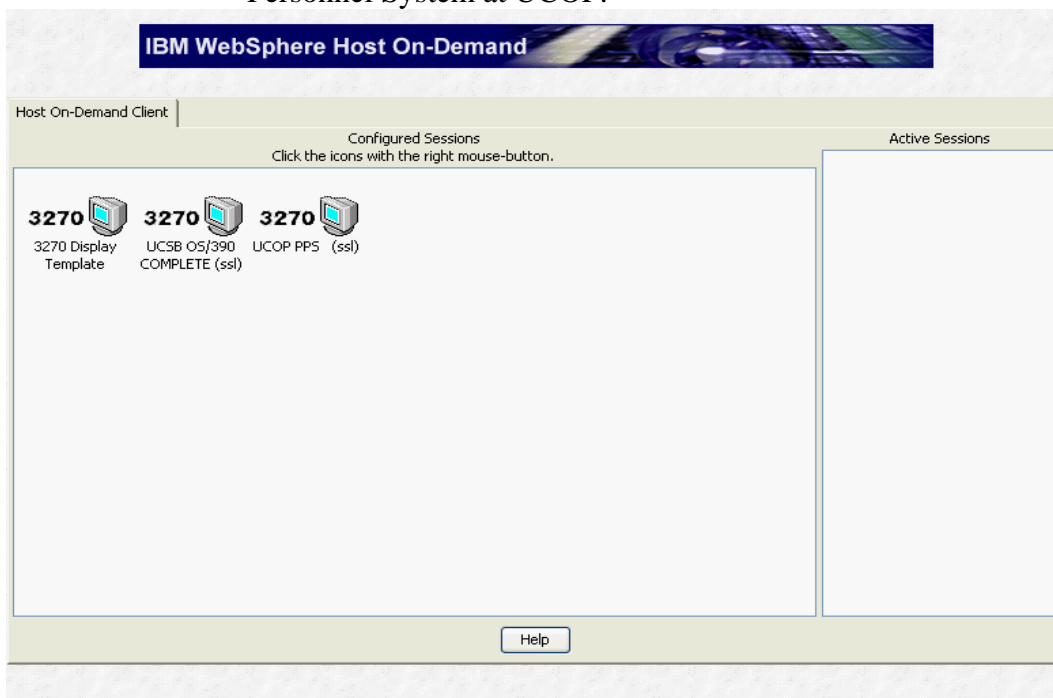

Click "**OK**" to start the download.

6. You should see one or more progress-meters displayed as the download progresses:

7. You should see the IBM WebSphere Host-on-Demand logo and icons for 3 configured sessions, as seen below. These sessions are named:

- **3270 Display Template:** This session can be used to create additional sessions.
- **UCSB COMPLETE:** This session may be used to connect to Complete.
- **UCOP PPS:** This session may be used to connect to the Payroll Personnel System at UCOP.

8. You may want to bookmark this page (**Firefox, Netscape, Opera**) or add it to your favorites (**Internet Explorer**) for easy access in the future.

9. To launch a session:

- Double click on an icon in the Configured Sessions window,
- or,*
- Right-click on a icon in the Configured Sessions window and select “**Start Session**”,
